

KASU MANOJ

JAVA FULL STACK DEVELOPER

kasumanoj81@gmail.com | +91-9347878233 | Hyderabad, India
[LinkedIn](#) | [GitHub](#) | [LeetCode](#)

PROFESSIONAL SUMMARY

Results-driven Java Full Stack Developer with hands-on experience building scalable backend microservices, RESTful APIs, and responsive web applications. Proficient in Java, Spring Boot, Spring Security, React.js, PostgreSQL, and Docker. Strong foundation in Data Structures & Algorithms, Object-Oriented System Design, secure authentication (JWT), and real-time messaging architectures.

TECHNICAL SKILLS

Languages: Java, JavaScript (ES6+), SQL, Python, C++
Backend: Spring Framework, Spring Boot, Spring Security, Microservices, REST APIs, JPA, Hibernate, JWT
Frontend: React.js, HTML5, CSS3, Redux, Component Lifecycle
Databases: PostgreSQL, MySQL, MongoDB
Tools & Cloud: Docker, AWS Services, Git, GitHub, Maven, Postman, Linux
Core Concepts: Data Structures & Algorithms, OOP, Real-time Messaging (WebSocket/STOMP), Agile/Scrum

PROFESSIONAL EXPERIENCE

TECHOUTS – Java Full Stack Intern

Hyderabad, India | Jun 2025 – Dec 2025

- Architected scalable backend microservices and RESTful APIs using Java 17, Spring Boot, and Spring Data JPA, cutting system latency and improving API response execution times.
- Engineered relational database schemas in PostgreSQL using Hibernate ORM, optimizing complex queries to improve data retrieval efficiency for high-traffic endpoints.
- Built interactive, responsive single-page applications (SPAs) using React.js and modern JavaScript, improving user experience and client-side page load speed.
- Implemented secure user authentication and authorization using Spring Security and JSON Web Tokens (JWT) across microservice boundaries.
- Participated in daily Agile sprint ceremonies, utilizing Git/GitHub for version control, conducting unit testing, and fixing high-priority defects.

KEY PROJECTS

Online Code Judge | Java, Spring Boot, React.js, PostgreSQL, Docker, REST APIs

- Engineered an automated code evaluation platform executing untrusted user code inside isolated, sandboxed Docker containers.
- Implemented real-time test case execution and scoring mechanisms, computing execution time and memory consumption metrics with sub-second feedback latency.

Real-Time Instant Messaging System | Java, Spring Boot, Spring Security, WebSocket, STOMP, React.js, JWT

- Developed a real-time chat application leveraging WebSocket protocols and STOMP messaging frames for low-latency full-duplex communication.
- Secured socket connection handshakes and API routes using custom Spring Security filters and JWT validation.

Multi-Role Job Portal System | Java, Spring Boot, Spring Security, JWT, React.js, PostgreSQL

- Designed a full-stack platform featuring Role-Based Access Control (RBAC) for candidates and recruiters to manage application pipelines.

E-Commerce Web Platform | Java, Spring Boot, Microservices, PostgreSQL, React.js

- Built a full-stack e-commerce system featuring microservices for user authentication, product catalogs, shopping cart, and order processing.

EDUCATION

B.Tech in Artificial Intelligence & Machine Learning (CGPA: 8.0/10)

Karimnagar, Telangana

Sree Chaitanya Institute of Technological and Sciences • *Relevant Coursework:* Data Structures & Algorithms, OOP, DBMS, Web Technologies

Intermediate (MPC) (Score: 69%)

Karimnagar, Telangana
